**AGX** Group Bhd said that its subsidiary, AGX Logistics (Viet Nam) Co Ltd, has signed a two-year freight forwarding and customs brokerage services agreement with VietJet Aviation Joint Stock Co to support the airline's operations in Vietnam.

Under the agreement, which runs from Nov 1, 2025, to Oct 31, 2027, AGX Vietnam will provide round-the-clock logistics support for shipments labelled as "Aircraft on Ground" (AOG).

The total value of the contract will depend on the number of shipments handled, based on mutually agreed rates and fees.

“Partnering with an airline of this scale and reputation positions AGX to strengthen its foothold in Vietnam’s aviation logistics market, enhance its service capabilities, and capture opportunities arising from VietJet’s expanding fleet and growing route network,” said AGX CEO Datuk Ponnudurai Periasamy.

He added that the deal reinforces AGX’s regional expansion in aerospace logistics and highlights its growing footprint in ASEAN’s high-growth aviation markets. — **TMR**
