LOYAL CUSTOMERS

*They don't just come back or simply recommend you.
They insist that their friends do business with you.*

GLOBAL FREIGHT FORWARDING & LOGISTICS COMPANY WITH A SERVICE DRIVEN CULTURE

We as a International Integrated Logistics Service provider, engage with our network partners to help customers manage their freight most efficiently throughout their supply chains. At the top of our value proposition is an intense customer service culture that connects our team worldwide. Our people focus on finding new ways to help our customers succeed, while becoming continuously more efficient ourselves.

Customer relationships are the lifeblood of our business. However, we never forget that our company has responsibilities to many other stakeholders as well: shareholders, employees, bankers, carriers, business partners, local communities and global society. When we say 'Let's Move the World Forward', we're speaking to the interests of all AGX stakeholders, as well as the world at large.

OUR 'CLIENT FIRST' APPROACH

Our Philosophy

At AGX, we place you, our client, at the heart of every working day – and our staff is duty-bound to deal with your inquiries and requests immediately; without exception. This 'Client Requests First' policy is the cornerstone of our service ethos, and every staff member knows that they will never be distracted from addressing a client request by any other day-to-day responsibility.

Whatever you need – a quotation, a status report, some shipping details, a document from an archived file or a duty rate – whoever staff member you speak to, anywhere in the world, will make it their priority to address your request immediately. Their primary responsibility is to satisfy your needs as quickly as they possibly can, working to specific timescales that are written into our client service rule book. We train all our employees to take full responsibility for seeing any customer request through to its conclusion – thinking on their feet we simply 'Make It Happen', we 'Get the Job Done' and we 'Make the Impossible, Possible'.

AGX started its business in 2004, operating out of a single Malaysia office. Since then, we have built a solid reputation throughout the world as an innovative and flexible provider of first class logistics services. Over the past 15 years, our successful entrepreneurial history with a significant positive growth encouraged us to expand in Singapore, Philippines, Myanmar, Cambodia & South Korea.

With our highly dedicated and customer centric team approach, we begin to spin the globe with global access to more than 1,100 network members worldwide.
